LOGIN

Above is the login window. It is the initial screen a user sees when entering the program. Type in your username and password to log in. The login window will close and a new one will open with the initial menu, menu select, and options for the menu selected.

NOTE: Pressing enter does not log you in. You must click the "Login" button to do so.

INVENTORY

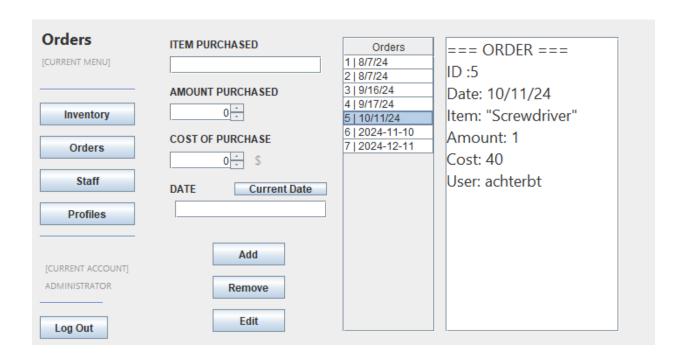

Above is the Inventory menu. It is the default menu when entering the program. On the left side is a list of menus to select. Only administrators are permitted to select the "Profiles" and "Staff" menus. (check page 6 for view of non-administrators). Administrative view is used for learning purposes.

To add an item to the inventory first enter the item name; location in the store, current stock, and unit price. Once the respective information is given, click the "Add" button and it will appear in the Inventory list on the right.

To edit an item; select the item in the Inventory list on the right. The fields used to add an item will be filled with the information of the selected item. Edit the information in the fields as needed, then click "Edit" to push your changes to the information on the Inventory list.

To remove an item from the Inventory list; select the item you want to remove from the Inventory list, then click "remove". The item will be removed from the list.

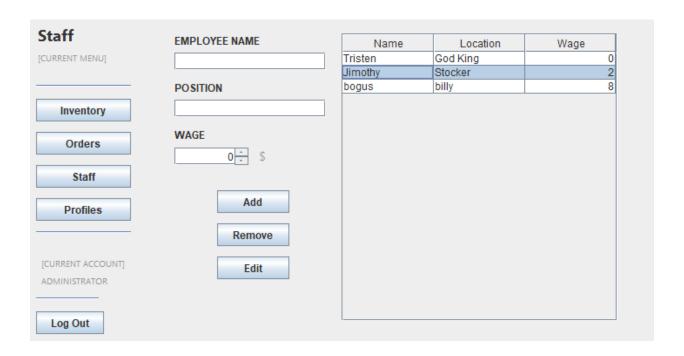

ORDERS

Above is the Orders menu. It tracks what items have been purchased, when they were purchased, the cost of the purchase, and quantity of items purchased.

Assume the same steps for managing and navigating the Inventory menu apply to the Orders menu. Note the key difference of two areas of information instead of one. The far right area displays information of a selected order, while the other displays the list of orders.

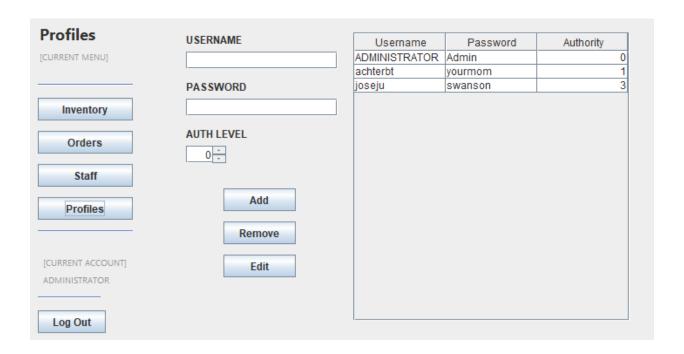

STAFF

Above is the Staff menu. This menu is only accessible by administrators. It displays the information of staff members with their name, position, and wage.

Assume the same steps for managing and navigating the Inventory menu apply to the Staff menu.

PROFILES

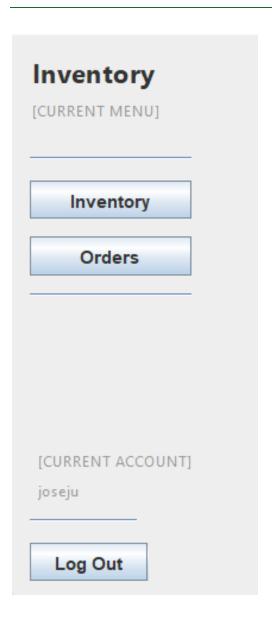

Above is the Profiles menu. This menu is only accessible by administrators. It displays information of users that can access the program. Such information is the username, password, and the authority level of the user.

Assume the same steps for managing and navigating the Inventory menu apply to the Profiles menu.

NOTE: Zero (0) is the highest authority – administrator – while 3 is the lowest authority.

NON-ADMINISTRATOR VIEW

Above is the view of the menu selections to those who are not administrators.
